DETAILED ACTION

This is in response to the Amendment submitted October 27, 2003. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 19-42 are currently pending in this application.

Claim Objections

1. The claim objections as set forth in the previous Office action with respect to claims 1-3 and 10-12 have been **withdrawn** in view of Applicant's cancellation of said claims.

Priority

2. Acknowledgment is made of applicant's claim for foreign priority based on applications filed in Japan on 1/16/01, 7/02/01, and 11/15/01. It is noted, however, that applicant has not filed a certified copy of the three applications as required by 35 U.S.C. 119(b).

Claim Rejections - 35 USC § 102/103

3. The 35 U.S.C. §§ 102 and 103 rejections of claims 1-18 as set forth in the previous Office action have been **withdrawn** in view of Applicant's cancellation of said claims.

Allowable Subject Matter

4. Claims 19-42 are allowed over the prior art of record.

5. The following is an examiner's statement of reasons for allowance:

The specific method of fabricating a part which includes, *inter alia*, forming a part forming layer on a surface and shaping the part forming layer by a machining process to define an outer configuration of a part was not taught or suggested by the prior art of record. It should be noted that "machining process" is to be limited to that which is disclosed in the specification.

Additionally, Applicant's reasons for allowance set forth in pp. 21-27 of the response submitted October 27, 2003 are deemed convincing by the Examiner and are incorporated herein into the reasons for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
